The City of Norwich has launched Envision Norwich 360 the new digital community engagement platform, powered by CitizenLab. The platform will provide residents, businesses, and property owners with a central online hub where they can learn about ongoing City projects and initiatives, share ideas, discuss proposals with fellow community members, and make their voice heard on the issues that matter to them. Envision Norwich 360 currently features four projects and allows users the ability to submit an idea that others can view and support. To register and start participating visit envisionnorwich360.com or click on the 06360 button located at the top of the main page of the City's website www.norwichct.org. Please contact the Planning Department at 860-823-3767 for more information.
